

To whom it may concern,

1 March 2024

Dear Sir/Madam,

Re: Letter of Recommendation

I am writing to extend my strongest recommendation for Kamar Mirmanov, whom I had the pleasure of supervising during his final year capstone project at Sunway University. Kamar's exceptional aptitude in research, development, artificial intelligence, along with his outstanding presentation skills, uniquely position him as a remarkable candidate for opportunities that aim to harness innovative technology and leadership.

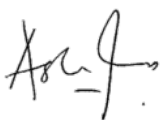

Kamar showcased an extraordinary ability to address complex challenges through his capstone project, applying AI technologies with both precision and inventiveness. His project demonstrated not only his technical prowess but also his commitment to advancing technological solutions.

Furthermore, Kamar's role as a moderator at the 24 Hours IEEE Day 2023 exemplified his communication and leadership qualities. His ability to facilitate expert discussions across a global platform underscored his capacity to inspire and engage with a broad audience, significantly contributing to the event's success.

Kamar's synthesis of technical knowledge, innovative thinking, and communication skills makes him an invaluable asset. His dedication to his work and his ability to collaborate and lead with vision assure me that he will exceed expectations in any endeavor he undertakes.

Please feel free to contact me for any further information.

Best Regards,

Ts. Dr Aslina Baharum
